

Montpellier le Vieux leisure park

An extraordinary site

"The Black Limestone plateau is the richest of these heap of rocks: Montpellier-le-Vieux, their capital, can be counted among the cities of the most remarkable rocks of the world" (E A Martel).

Free walks

Five courses are offered to you, clearly marked out, adapted to all the pleasures: Walk, Pique-Nique or Sporting Excursion. You will never forget the Bear, the Crocodile, the Camel, the Large Sphinx, the Triumphal arch, the Eyes of the Badger... and of course the Door of Mycène, true work of architecture.

The small train

If you wish it, our small green train will lead you, without effort, in the heart of this unique site classified in the Building industries of France Heritage.

Via Ferrata

Unique, first underground then above ground, with 4 zip-lines. Supervised by our instructors.
