

Agri - cultural visit of a silkworm farm

We will lead you around the farm to show you how the landscapes have been shaped by farmers of today and yesterday. You will discover the dry stone terraces, the plantations of mulberry trees, the farm activities, the life of the nearby river and how the breeding of silkworms began in the Cévennes.

Adults and children will be marvelled while discovering the silk farm :
You will see the magic and poetry of these caterpillars making their cocoons !
From the egg to the butterfly, you will find out the outcome of 5000 years of history....

This visit ends with a snack on the terrace, made of home-made products, in the shadow of the arbour.
